

A look back...

by Kelsey Johnson

As I look out the window, I can't help but notice that the leaves are changing colours, there's a nip in the air, and the pile of homework on my windowsill has grown exponentially. September is no more. With this conclusion comes a glance back at last month's Math Society events.

First up, the extremely successful BBQ! The fact that we managed to run out of hot dogs (twice) can only mean I wasn't the only one enjoying the food, conversation and to-die-for cookies.

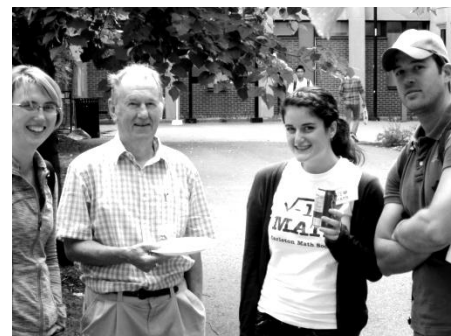

Following the BBQ was a staple ingredient in the Math Society social calendar... a soccer game! What better way to relieve the stress caused by complex calculus and algebra equations than to spend quality time with your fellow math peers kicking a ball around?

Next up was the used book sale, the best friend of any university student trying to find a good bargain. All the students who came got incredible deals on old and new(ish) math books.

Last, but definitely not least, was Dr. Moore's Colloquium on *Paradoxes*. Based on the fact that Dr. Moore successfully managed to confuse a packed room within 30 seconds, I believe the problem of paradoxes was nailed on the head.

Well, that about sums up the month's events. Be sure to check out October's many happenings. Have a Happy Thanksgiving!

Kelsey Johnson is a Carleton Journalism student who finds herself hanging out with Math people way too much... and loves every minute of it.

Introducing our First-Year Rep!

Name : **Kim Nguyen**

Program : **B. Math Honours**

Fun Facts : **Is a rugby referee, dropped out of a college toolmaking degree to study math here instead**

Nickname : **Kimbit**

Favourite Greek Letter : **Π**
